

ROSHAN KUMAR

.NET Full Stack Developer | ASP.NET Core | RESTful API | React.js

roshankumar95196@gmail.com +91 8826262508 Noida, India [Linkedin](#) [Github](#)

Professional Summary

Results-driven .NET Full Stack Developer with 3.8 years of experience developing scalable web applications using ASP.NET Core, C#, .NET 6/8, React.js, SQL Server, and MySQL. Skilled in RESTful API development, third-party API integrations, frontend-backend integration, JWT Authentication, RBAC, Clean Architecture, and database optimization. Experienced in delivering secure, high-performance solutions in the insurance domain within Agile environments.

Technical Skills

Languages: C#, JavaScript, SQL, HTML5, CSS3

Frameworks: .NET Core 6/8, ASP.NET Core, Web API, MVC, Entity Framework Core, ADO.NET, React.js

Architecture: Clean Architecture, SOLID Principles, OOP, Design Patterns, Dependency Injection

Databases: SQL Server, MySQL, Stored Procedures, Query Optimization, Indexing, Pagination

DevOps & Tools: GitLab CI/CD, Git, IIS, Swagger/OpenAPI, Postman, SoapUI

Security: VAPT Remediation, Secure API Design, Input Validation, JWT, RBAC, OAuth 2.0

AI-Assisted Development Tools: Copilot, ChatGPT, Cursor, Claude

Professional Experience

Full Stack Developer (.NET Core & React)

Sept 2022 – Present

Ebix Technologies Pvt. Ltd., Noida

- Designed, developed, and optimized 100+ RESTful APIs using C# and .NET Core, reducing API latency by 30%.
- Optimized SQL Server and MySQL stored procedures through ADO.NET, improving query performance by 40%.
- Led migration of a legacy PHP CRM to .NET Core 8 and React.js, enhancing scalability, maintainability, and security.
- Implemented JWT Authentication and Role-Based Access Control (RBAC) for 500+ enterprise users.
- Integrated 50+ insurer APIs for quote generation, KYC verification, payment processing, and policy issuance.
- Developed and enhanced React.js UI components and integrated backend APIs to support business workflows.
- Delivered 100+ production enhancements while resolving 50+ VAPT issues, ensuring secure and stable releases.
- Managed GitLab CI/CD pipelines, IIS deployments, Swagger documentation, and Agile delivery processes.

Key Projects

Ebix Insurance Portal

.NET Core — SQL Server — ADO.NET — React.js

- Developed a multi-insurer B2B portal enabling brokers and agents to compare, issue, and manage insurance policies.
- Built RESTful APIs and React.js components for premium calculation, proposals, KYC, and payment workflows.
- Integrated 10+ insurer APIs by analyzing third-party API kits for real-time quotes, validation, and policy issuance.
- Improved performance by 40%, resolved VAPT vulnerabilities, and fixed critical UAT and production issues.

Ebix Insurance CRM

.NET Core 8 — React.js — MySQL

- Migrated a legacy PHP CRM to .NET Core 8 using Clean Architecture, improving security and scalability.
- Developed secure APIs for lead management, claims processing, reporting, and agent management.
- Implemented JWT authentication and RBAC for secure role-based access control.
- Delivered optimized APIs with pagination, filtering, search functionality, and React.js integration.

Certifications

- JPMorgan Chase – Advanced Software Engineering (Forage)

Education

B.Tech – Electronics & Communication Engineering

2019 – 2023

Dr. A.P.J. Abdul Kalam Technical University, Lucknow
